## Siddhant Institute of Business Management

Trees represent life, growth, peace and nature. They produce oxygen, clean soil, prevent drought, control flood related disasters, prevent soil erosion, improve physiological, mental and spiritual health, and also reduce carbon footprints. Keeping this in mind the campaign for the Tree Plantation Programme was organized by Siddhant Institute of Business Management 06/06/ 2022.

It was 6th June 2022; Siddhant Institute of Business management organized a program to plant 300 saplings and young trees to celebrate the World Environment Day with a unique idea. The objective of this event was to teach students, how we can save our climate from pollution. This was a great initiative to make our atmosphere neat and clean. By tree plantation, we can develop a climax ecosystem free of greenhouse gases to reduce global warming.

Students and faculty members were asked to reach 9.00'O clock. The program started with prayers. Our director, He started the event by planting the first sapling in the corner of the Institute garden with his hand. Plants were provided by the Badve Engineering Ltd.. About 200 seedlings were planted by the students of our campus and then watered by gardeners of the College. Teachers also participated in the tree plantation program The main purpose of this event was to enhance awareness about the importance of tree plantations.

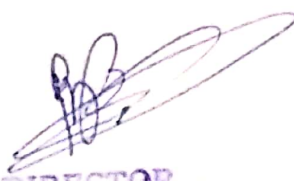

As soon we completed our goal of tree plantation, there was a debate competition among students on the topic, "How we can keep our climate clean?" No doubt, the only answer to this question was tree plantation to conserve the ecosystem. Our students mahimaGabhane& Vishal Kacchave, SyushJadhav, PranavKedari&monikaMore ,MayurBhegade were Participate in the debate.
