BEST PRACTICE 01

Title of the Practice: Mentorship Scheme

Objectives of the Practice:

1. To plan personal and career goals of students.
2. To improve presentation skills, written skills, and oral communication skills.
3. To enhance general aptitude test and technical quiz proficiency.
4. To develop leadership qualities.
5. To provide guidance on resume writing and preparations for mock interviews.
6. To establish a vibrant relationship between the faculties and the students that will ensure responsible behaviour and discipline

The Context:

The Mentorship Scheme was implemented in response to the need for holistic development of students in addition to their technical knowledge. The institute recognized the importance of personality development, communication skills, teamwork, leadership qualities, and resume writing for students to succeed in the industry.

The Practice:

Under the mentorship scheme, a teacher (mentor) is assigned a group of approximately twenty students (mentees), with around twenty students from each year. Mentor meetings are conducted once every alternate week, where various activities such as career goal setting, presentation skills development, communication skills improvement, resume writing, and aptitude test preparation are conducted. Mentors also maintain records of their mentees' academic performance, including attendance, results, and co-curricular participation, and communicate this information to the parents.

- Mentoring session is conducted twice in every 15 days
- The session is compulsory for every student to attend without fail. Mentors are assigned 15-20 students for the whole duration of a semester each i.e. six months.
- The mentoring parameters are based on four aspects i.e. academic, attendance, career and general.
- The mentors are provided with details of mentee's performances in terms of academic (weekly test, class test, and mid-term and end-semester exam) and attendance records.

- The mentor also keeps track of the mentee's personal development such as co-curricular activities, discipline and career related issues.
- The mode of communication between the mentor and mentee can be established through different mode(s) namely- In-person, Phone and E-mail.
- The grievances of the mentees are taken up by the mentor and if necessary it is forwarded to the Principal for necessary remedial actions.
- A separate Mentorship File is been maintained by every Mentor (Faculty) and it contains separate page for every mentee as to maintain its record.

Evidence of Success:

The success of the mentorship system is reflected in the overall personality development of the students.

- Improvement in mentees discipline, interaction and communication skills.
- Improvement in students' attendance.
- Establishment of a vibrant relationship between Faculties and students which has provided a congenial atmosphere in the class room as well as in the campus.

Problems Encountered and Resources Required:

One challenge faced by the institute was the students' limited exposure to current enhancements due to the rural location of the institute.

The diversity in students' background and upbringing i.e. lack in the art of effective articulation, introversion, indifferent attitude etc. Inadequacy in general guidance, career and professional related materials. This is due to the financial constraints faced by the management because the institution is dependent on grants.
