3. Improve placements activities ... Make sure that staff not only prepared for the theory based instead that focus on the placement activities like aptitude coding..or interview preparation too

Give three observations or suggestions to improve the overall teaching – learning experience in our College.

90 responses

The overall quality of teaching process in my college is very good

1. **Continuous Professional Development**: Encourage faculty members to participate in workshops, seminars, and conferences to stay updated with the latest teaching methodologies and soft skills.
2. **Feedback Mechanism**: Implement a robust feedback system where students can anonymously provide feedback on the teaching methods and soft skills of instructors. This allows instructors to identify areas for improvement.
3. **Peer Observations**: Arrange for peer observations where instructors can observe each other's classes and provide constructive feedback. This promotes collaboration and sharing of best practices.
